**IN THE COUNTY COURT OF THE TWELFTH JUDICIAL CIRCUIT IN
AND FOR MANATEE COUNTY, FLORIDA**

COLONIAL MANOR MHC HOLDINGS, LLC,
Plaintiff, Counter Claim Defendant

VS

Case No.: 2025-CC-000715

GEORGE EDWARD YESKE, III
and ANY
UNKNOWN PARTY(s) IN POSSESSION,
Defendants and Counter Claim Plaintiffs

**DEFENDANT'S ANSWER TO PLAINTIFF'S Renewed And Supplemented Motion In
Limine**

COMES NOW, the Defendant, by and through himself as counsel Pro Se and moves the Court to quash the Plaintiff's Renewed And Supplemented Motion In Limine.

1. The entities that are mentioned in the Defendant's are all related to the Defendant's defense which include knowledge of when the Defendant contacted a demolition company and scheduled demolition of the home, which has already been established as planned prior to year end.
2. All documents submitted by the defendant do apply to Defense of his case in that they all will be proven to have direct support of the fact that the trailer on lot 38 is in fact in need of demolition and the documents and pictures will be used as a means of demonstrating the correct trailer is being addressed since the plaintiffs have yet to provide any evidence that any rent was or is due.

3. Plaintiff's counsel is not a mind reader and therefore has no idea what any of the planned documents are related to nor does he appear to have any clue as to the defense being launched.
4. There was no non party operational or disagreements that are being discussed since the Colonial Manor HOA operated their food pantry and stored their meal preparation equipment in over 50% of the area inside the home on lot 38 (which the Court might note that the evidence the Plaintiffs have provided all have to do with lot 232 and as of this filing has not provided any documents that clearly indicate a business agreement between the Plaintiff and Defendant) and the Plaintiff's own claim and complaint clearly lists "Unknown Defendants" in their complaint.
5. The Defendant never claimed to use any testimony of witnesses regarding another pending action but does plan to introduce testimony that will prove that the Plaintiff's witness lied under oath at an earlier hearing and further lied in written answers to Interrogatories that she claims were prepared with the assistance of Mr. Price. That particular testimony included the following from the transcripts of the initial hearing:
 - a. MS Peake sworn under oath that she "saw with my own two eyes" my wife living in 38 in January.
 - b. In here interrogatories, she claimed that Defendant's wife moved out of the park "on or about December 10, 2024"
 - c. MS Peake answered "No" to the question "Have provided, caused to be provided to any customer or resident of any company or organization

that you held a management position with confidential information to a third party without authorization of the subject of that third party information.” The Defendant intends to use information proving this to be a lie thereby bringing into question whether or not this lawsuit was brought as a means of retaliation by the Plaintiff through their agent, MS Peake, a clearly defined part of the Defendant’s counterclaim.

6. Again the Plaintiff’s counsel seems to be guessing at what testimony to expect when the Plaintiff’s were clearly made aware of what MS Dyce will be testifying about during the trial, that has nothing to do with issues this person may have had, which the Plaintiff has failed to identify, along with filing a proper complaint in the first place using none related documents as his evidence. Which the Defendant will object to should that evidence be introduced for anything other than admitting their whole claim is nothing more than a sham.
7. The only reason that property still has a non-demolished unit on it is because, as testimony will reveal, the demo expertise was very limited due to the extent of the damage done by the hurricane and service was on a first come, first serve basis. Couple that with an order by the Court to preserve evidence, the shambles will remain until this case is closed. Also the Court should be advised that some of the Defense witnesses will testify to the length of time it took the park to have other terminally damaged home taken down and new units installed, none of which are currently occupied and the Plaintiff’s have not demonstrated that any of the replacement units have a Certificate of Occupancy. To be clear, the destroyed homes were destroyed over a year ago and the park has yet to provide any evidence that they have mitigated their losses due to the storm.

8. All of the evidence the Defendant plans to introduce pertains to the Defendant's case which is directed at the fact that since the park manager had refused to take title of the property, thus delaying the contacting with a demolition company and the fact that the park was give a notice of vacating well in advance of the move out date, any claims for rent after the end of December are moot and should be dismissed along with the Plaintiff's Renewed And Supplemented Motion In Limine which is without merit.

Respectfully Submitted to the Court December 7, 2025.

I certify that the above answer has been served in accordance with FLA Rules of Judicial Administration 2.516 through the Florida Courts Efiling system Portal upon the Plaintiff's attorney William Price via email at pleadings@wcpricelaw.com and mailed via US mail, postage attached to
